

BATTERY CHARGER

The Battery Charger is your all-in-one, reliable charging solution for diverse applications

Over-voltage protection

Over heat Protection

Current limiting protection

Short-circuit protection

Reverse polarity protection

AC INPUT Customization for Global Battery Chargers

Multiple DC Output plug options for hassle-free Compatibility

..... More

BATTERY CHARGER

Broad Application Range

FEATURES

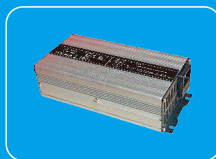

- ★ Fully automatic, surge charging, flat charging, trickle charging, full automatic shutdown
- ★ High-precision current and voltage lock to ensure full charge and no overcharge
- ★ Over current, over voltage, short circuit protection, safe and reliable
- ★ Indicator light display, all-aluminum shell, beautiful and sturdy, durable
- ★ Built-in output digital control/enable control/optional CAN control

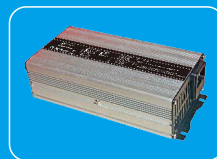

CH150

CH280

CH600

CH900

Model	Size(mm)	Input Voltage	12V	24V	48V
CH150	170*90*68	90-132V & 180-260V	10A	5A	2.5A
CH280	170*90*68	90-132V & 180-260V	20A	10A	4.5A
CH600	210*100*68	90-132V & 180-260V	25A	20A	10A
CH900	243*135*70	90-132V & 180-260V	40A	30A	15A
